EVENT
CATALOGUE**

WELCOME

We acknowledge the traditional custodians of the land we are meeting on, the Wiradjuri people. We acknowledge, celebrate and respect their continuing culture and the contribution they make to the life of this region. We would also like to acknowledge and welcome other Aboriginal and Torres Strait Islander people attending today's event.

Marramarra is a Wiradjuri word meaning make, create or do. It's a fitting title for a project and event that unearths and showcases local Aboriginal visual arts, performance and culture.

This project began in March 2011 with a series of professional development workshops for Aboriginal visual artists. There have also been workshops for young Aboriginal dancers and workshops focussed on music and film making. Over 150 people have participated in these workshops.

The project culminates in a community gathering, exhibition and performance at Bathurst Memorial Entertainment Centre on Tuesday July 12, 2011.

This event catalogue includes the story of this workshop process, profiles of the visual artists exhibiting their work, and information about the performers and the people who have made it all happen. This is just a first step in what we hope will be a continuing program to further develop our region's Aboriginal arts.

FOREWORD

Aboriginal arts and cultural expression has always played an important role within Aboriginal society, being the cornerstone of Aboriginal people's identity and an important element within the social fabric of Aboriginal people and the communities they belong to.

Within NSW, we have seen these forms of expression not only build upon traditions and practices of the oldest living culture in the world, but embrace a range of social, cultural and political impacts that has shaped new forms of expression through contemporary arts and cultural practices.

These practices have resulted in a diverse number of new stories being told and shared that not only result in strengthening Aboriginal communities, but foster a greater understanding, awareness and empathy towards the experiences of many Aboriginal communities by the wider community.

Although we have seen a growing appreciation of Aboriginal art and culture in Australia, there continues to be a challenge for NSW Aboriginal communities, artists and arts and cultural organisations to raise the profile of the wealth of unique contemporary Aboriginal arts and cultural practice that exists in NSW.

That is why events such as *Marramarra* are crucial.

Marramarra offers a unique opportunity to experience the stories and experiences through the artworks and performances of Aboriginal artists and communities from within the Wiradjuri nation.

This opportunity extends not only to the broader arts and cultural sector but to all communities from across the Central West of NSW to appreciate a dynamic and formidable celebration of Aboriginal culture in their own back yard.

Central West Aboriginal Arts Development Mentor

ABORIGINAL ARTS PROGRAM

The development of our Aboriginal arts program has been an exciting initiative for Arts OutWest and our *Marramarra* event is an important step in the process of building a vibrant and sustainable Aboriginal arts industry in our region. There is a wealth of interesting work happening with Aboriginal artists in the Central West across a range of artforms. Here at Arts OutWest much of our job has been to identify this activity and to help profile this work so that our region's Aboriginal arts become more visible – to our own communities as well as to other regions and potential markets. While participation in the arts remains a valuable goal, we are also focused on ensuring that our program's outcomes include career pathways for Aboriginal creative practitioners and business opportunities for our artists.

We have been fortunate to be able to put together a strong team of presenters to deliver this program. We are grateful to our funding partners who have funded our two Aboriginal arts officers Ted Budd and Aleshia Lonsdale, and for the project funding that has enabled us to put on *Marramarra*.

While *Marramarra* is a culmination of many months work, it is not an ending. Arts OutWest plans to continue to develop our region's Aboriginal arts over the next few years. Ultimately though we hope that it is our Aboriginal communities, organisations and businesses that will be the drivers in the ongoing success of indigenous arts in the Central West.

DANCE

Workshop facilitator: Jo Clancy

In 2008 Arts OutWest brought Wiradjuri dancer/ choreographer Jo Clancy to the region to work with young dancers in Cowra, Kelso, Wellington and Condobolin.

This time, Jo worked with the Wagambirra Dancers at Cowra High School and young dancers from Condobolin and Lake Cargelligo. Jo has also been working with students at Bowen Primary School. The dance style Jo teaches fuses traditional with contemporary.

Dances you will see today from these groups include:

- A 'Clearing' dance from Cowra;
- A girls 'Gathering' dance performed by the Cowra girls and a couple of the Condobolin girls;
- 'Lyrebird' dance by the Condobolin primary aged kids;
- 'Responding to Country Dance', Bowen Primary School;
- and the upbeat 'Solid Rock' that all the dancers have been learning

The *Marramarra* project was also able to support the ongoing dance program ran as part of Bathurst Memorial Entertainment Centre's Aboriginal Performing Arts Program. Workshops were ran by professional dancer/ choreographers Genoa Gela and Alison Plevy.

MUSIC AND FILM

Workshop facilitator: Toby Finlayson, with Bruce Carr

Toby Finlayson from Desert Pea Media and local Wiradjuri hip hop artist, Bruce Carr spent the lead up to *Marramarra* coordinating a set of hip hop workshops in Orange, Wellington and Condobolin.

The workshops looked at mentoring local young people to write, record and make a music video of their own local story. The entire process is completed in three days, with a focus on advocating awareness of local story and culture. Desert Pea Media uses hip hop as a tool to re-engage young people with country, to inspire and to empower.

The songs look at art and dance as forms of self expression, the history of indigenous story and the development of these forms today.

MUSIC AND FILM – LYRICS

First Footprint (Wellington)

*Black man, black land, white ochre on the skin
Religion is we listen to the spiritual within
Let the lyrical begin
The miracle we bring
The rhythm is traditional, the spirit that we sing.*

*Live it up, give it up now, across the nation.
Bringin it to Bathurst for the celebration
Since the first creation we dance in the dirt
Stomp that spirit up from the earth.*

Breath (Orange)

*Since the first day, first dawn, light in the dark.
The first warrior carved his first mark in the tree bark
The first art. The first true miracle.
Somewhere between the physical and the spiritual*

*The first Aboriginal, the first creation
The Rainbow Serpent create the first nation
Art was the first education
Black man, black woman paint the first generation*

VISUAL ARTS

Workshop facilitator: Sean James Cassidy

The visual arts workshops part of the program focussed on the professional development of the artists in the region.

Participants were taught skills for selling work on the professional market. They looked at topics like choosing good materials to work with, how to approach galleries, pricing work and commissions. Participants were encouraged to be confident in talking about their artwork and bringing the story or meaning out when explaining it to others.

Aboriginal Economic Development Officers at the Business Enterprise Centre also talked about business development for artists.

Many of the artists in this exhibition were drawn from these workshops.

WALANMARRA (TARONGA WESTERN PLAINS ZOO)

Walanmarra is an Indigenous Awareness Program at Taronga Western Plains Zoo at Dubbo.

This program targets high-risk children under 24-hour departmental care. Children assist with animal care, take part in education workshops and participate in art and cultural activities. Children enter a fun, engaging learning environment where they develop positive skills necessary for adulthood. The Walanmarra program is a joint initiative between Taronga Western Plains Zoo and Community Services Out of Home Care. Walanmarra is a Wiradjuri word meaning 'to make strong.'

Check out the Walanmarra campaign store at today's event, showing what the zoo supports and the participants learn about.

ABC OPEN

ABC Open has brought the DreamBox project to *Marramarra*. DreamBox invites indigenous Australians to share their dreams in a single photograph. You can also set up your own DreamBox in your school or community.

ABC Open is an exciting new initiative, employing 45 new digital media producers in regional Australia, to help them create and share their stories and ideas on the ABC. It's an opportunity for you to tell the stories you care about, and to share the issues and ideas of regional Australia with the world. Follow the news, tweets and blogs from the ABC Open producers in your region and get involved.
